

Corporate and Social Responsibility Policy

Platinum Print Ltd believes that responsible ethical and professional business practice should be central to all our operations and day to day business activities

Our mission

Our Mission is to continue to improve our standing as a leading supplier of print and print related services by providing the highest standards in terms of quality and customer service with as little impact as possible on the environment.

We recognise that responsible business practice and true professionalism can help to penetrate new markets and achieve total customer confidence. Platinum Print Ltd works to the highest standards. We are Pantone accredited and have achieved ISO 9001:2000 quality accreditation, ISO14001:2004 environmental accreditation, ISO27001:2013 information security management and are working towards becoming carbon neutral.

Platinum Print Ltd is innovative in achieving the highest industry accreditation standards and has invested heavily in the latest hi-tech environmentally friendly printing equipment.

Our statement

Employees

We fully understand that continuity of supply requires a motivated contented and skilled workforce with minimum staff turnover who are used to working in a team environment. We endeavour to provide ongoing training, fair personnel policies and excellent working conditions that contribute to a committed conscientious workforce.

Customers

By operating a highly efficient, hi-tech, safe, environmentally friendly printing operation that is supported by ISO product quality and environmental accreditation, our high standards will endeavour to protect our customer's reputation within their market place to both their clients and shareholders. We endeavour to have good working relationships by communicating both openly and honestly at all times.

Our Suppliers

We have excellent long-term relationships with our suppliers to whom we communicate our core values. We only deal with companies who take a responsible position in terms of ethical dealings, human rights, health and safety and environmental issues.

The Environment

We recognise that print is a high-risk source to the environment in terms of damaged forests through paper products and waste chemical pollution. Platinum Print Ltd is an example to both our own industry and that of other manufacturing sectors by achieving ISO14001 and working towards becoming Carbon Neutral.

Our Customers

Customer satisfaction is paramount to the success of our business and our systems are structured to provide the highest levels in terms of both quality and service.

All work is produced to ISO 9001-2000 system quality.

Clients receive customer satisfaction questionnaires which provide us with relevant information which ensures that the highest standards are maintained.

We operate the very best in management information systems and we are able to provide our customers with any job-related information that they require instantly at the push of a button.

We strive to provide our customers with the very best in terms of quality, price, speed of turnaround and the highest industry standards are applied throughout our business operations. We believe our drive for continual improvement will help us to achieve continual growth and maintain our market position as a leading supplier of print.

Our Workforce

Our workforce is vital to the success of our business.

We acknowledge that we all spend a great deal of our lives at work therefore our workforce should be happy and fulfilled in their working lives.

We operate a comprehensive training policy both external and internal that ensures our employees have the necessary skills to operate as part of a highly skilled team that works to the highest standards.

The company believes in equal opportunities and is none discriminative.

We aim to treat people fairly and welcome job opportunities from all sections of the community.

We encourage people to improve themselves and existing employees are considered for promotion before external advertising.

The company complies with its obligations under the disability discrimination act.

Our Suppliers

As a business, we believe in sourcing goods and services from suppliers who operate in an ethical way.

We have a new supplier pre-qualification document to be completed by all new suppliers, allowing us to make necessary checks before placing work, including ethical work practices.

It is important to us to build and maintain good working relationships with our suppliers and as such it is our policy to settle invoices close to the end of the month following the month of invoicing.

We value feedback about our services and communications and recognise the right of our suppliers to make a compliment, complaint or suggestion about our services and processes.

Our Neighbours and the Wider Community

Platinum Print Ltd draws on 32 years of successful trading experience to continue to achieve sustainable growth and maintain our position as a leading supplier of print.

We support the local economy through recruitment and procurement practices.

We work closely with local charitable organisations, helping in a number of ways including;

Buying print finishing services from disability action employers.

Sponsoring print for different charitable fundraising events.

Staff get involved by taking part in fund raising activities and volunteering in their spare time to help support local groups.

Support for local schools, is also a priority;

We offer work experience to pupils of all the local secondary schools.

We donate paper off cuts and end of line grades to the local primary schools.

We do guided tours for all local schools and colleges offering an insight into the world of print.

The Environment

Platinum Print Ltd takes its environmental responsibilities very seriously and recognises that the printing industry can have a massive influence on the environment and importantly how the world's forests are managed.

It continues to be of great importance to Platinum Print that we honour our commitment to helping customers make the right decision on the paper they use with minimum environmental impact.

We are committed to a Carbon Capture scheme.

Capturing and storing carbon from the atmosphere is vital in the fight against climate change and with this in mind, we work closely with our suppliers who work alongside the Woodland Trust's Woodland Carbon scheme to mitigate the CO2 emissions generated by the production, storage and distribution of paper.

By buying responsibly Platinum Print customers are able to curb their carbon emissions with the planting of trees, thanks to the carbon capture scheme which can now be offset against the majority of stocks and materials.

Currently the scheme has captured almost 57,000 tonnes of carbon. That's as heavy as 11,000 elephants or 11.3 billion sheets of A4 paper.

Platinum Print Ltd aims to be a first-class supplier, employer and neighbour. We are fully committed to minimising the effect our manufacturing processes have on the environment and with this in mind we have recently undertaken the process of measuring our Carbon Footprint with the aim of becoming Carbon Neutral.

Health and Safety

Safe working is a contractual condition of working at Platinum Print Ltd and is detailed in the Health & Safety policy.

To facilitate the observance of this policy the following procedures apply:

All machinery is serviced and maintained at regular intervals, under maintenance contracts where applicable.

All electrical appliances are tested annually by competent engineers to ensure that they are safe.

All machinery is used only when the appropriate guards are in position and correctly working, at no time is machinery used by untrained employees without supervision.

Training of employees is documented for each individual item of machinery and each employee.

All hazardous substances are stored in the metal cabinets provided, care is taken to keep aisles between benches, desks and machines free from obstruction.

A Fire procedure is in force in the building, the conditions of which are followed at all times. The employees are made aware of these conditions and escape routes are pointed out to staff and a fire drill conducted at least once a year. Fire warning systems are checked weekly and documented, we operate a No Smoking Policy, and paper waste is stored at least 10 metres from the building reducing fire risk.

All our procedures and operating of equipment are Risk Assessed regularly and we maintain formal documented Risk Assessments.

All accidents no matter how minor, are reported and documented.

First Aid Kits are provided in various areas, they are regularly checked and re-stocked and all shift workers and 2 office workers are appointed First Aiders.
